

Unity Safetylight Bracket Specifications

SAFETYLIGHT BRACKETS are cast in BRASS to fit contours of doors or corner posts without filing or fitting.

INSIDE BRACKET—The No. 3 Universal Inside Bracket is used with practically all Safetylight Brackets listed below.

WHEN ORDERING RIGHT HAND BRACKETS, add suffix R.H. to bracket number, thus—52 R.H.

UNIVERSAL Bracket No. 52 is available for all older models not listed. We advise AGAINST the use of this Bracket where we have a tailored Bracket available. Detailed instructions, template and drill bushing accompany each Bracket Set.

SAFETYLIGHTS may be ordered with or without brackets and any bracket may be ordered separately.
