

BRACKET SPECIFICATIONS FOR UNITY SAFETYLIGHTS AND No. 780 PANORAMIC MIRROR

BRACKETS are cast in BRASS to fit contours of doors or corner posts without filing or fitting.

INSIDE BRACKET—The No. 3 Universal Inside Bracket is used with practically all Safetylight Brackets listed below.

WHEN ORDERING RIGHT HAND BRACKETS, add suffix R.H. to bracket number, thus—52 R.H.

UNIVERSAL Bracket No. 52 is available for all older models not listed. We advise AGAINST the use of this Bracket where we have a tailored Bracket available. Detailed instructions, template and drill bushing accompany each Bracket Set.

UNITY FOG LIGHT BRACKET DATA

Brackets for Unity Fog Lights are not packed in the same carton which contains the Light Assembly. These Brackets are packed in separate cartons—ONE BRACKET TO A CARTON.

When ordering Fog Lights or Driving Lights, always specify an equal number of brackets, on basis of ONE bracket for lights packed SINGLY, and TWO brackets for lights packed in PAIRS.

FOG LIGHT SPECIFICATIONS FOR 1953 CARS—CONDENSED

"B" brackets mount on splash pan. "T" brackets mount through curve top of bumper. These two types of brackets fit almost all 1951-53 passenger cars and will be shipped unless otherwise specified.
