4. RELOCATE WIRING & ATTACH FINISH TRIM

(a) Pull the finish trim back to the "A" pillar.
(b) Pull the wiring out of the "A" pillar slot.
(c) Remove the wire harness inside the "A" pillar to clear the hole.

5. SCREW TO HOLD DRILL BUSHING TO POST & TIGHTEN SET SCREW

(a) Use #6/32 drill bit and drill holes on the post (FIG. 2).  
(b) Mount the bracket and gasket assembly securely to the post.  
(c) Insert the drill bushing through the fixture (FIG. 2) and orient the fixture to the position being secured.  
(d) Using three mounting screws (FIG. 2) secure the gasket to the fixture.  
(e) Insert the screw into the fixture (FIG. 2) and tighten the screw.

6. DRILL MOUNTING HOLES & ATTACH BRACKET

(a) Drill one hole on the bracket (FIG. 2) with the spigot bushing.  
(b) Drill the holes and mount the bracket on the post.  
(c) Follow the instructions and instructions on the 555 template.
(d) Align the bushing to the location of the 555 template.  
(e) Position the bracket and gasket assembly on the post (FIG. 2).  
(f) Follow the instructions and instructions on the 555 template.

7. REMOVE PARTS FROM VEHICLE "A" PILAR

(a) Lower your vehicle and roll down the windows.
for the convenience of installing the spotlight. Install the gasket in the notch.

(c) Press the gasket into the spotlight hole in the finish trim (Fig. 8). If the gasket is not flush with the finish trim, turn the spotlight lead to the offset position by pushing it down as shown in (Fig. 11).

(d) Turn the spotlight lead assembly (Fig. 8).

(e) Loosen the wing screw. Remove the wing screw, the wedge and the spotlight hardware assembly (Fig. 8).

(f) Loose the wing screw, remove the wing screw, the wedge and the spotlight hardware assembly (Fig. 8).

(g) Install the spotlight bracket and gasket assembly (Fig. 9).

(h) Install the spotlight bracket and gasket assembly (Fig. 9).

(i) Check and make sure that the gasket is not installed in the installation.

(j) Install the spotlight bracket (Fig. 9). Before the installation,

(k) Install the spotlight bracket (Fig. 9). Before the installation,

(l) Install the spotlight bracket (Fig. 9). Before the installation,

(m) Install the spotlight bracket (Fig. 9). Before the installation,

(n) Install the spotlight bracket (Fig. 9). Before the installation,

(o) Install the spotlight bracket (Fig. 9). Before the installation,

(p) Install the spotlight bracket (Fig. 9). Before the installation,

(q) Install the spotlight bracket (Fig. 9). Before the installation,

(r) Install the spotlight bracket (Fig. 9). Before the installation,

(s) Install the spotlight bracket (Fig. 9). Before the installation,

(t) Install the spotlight bracket (Fig. 9). Before the installation,

(u) Install the spotlight bracket (Fig. 9). Before the installation,

(v) Install the spotlight bracket (Fig. 9). Before the installation,

(w) Install the spotlight bracket (Fig. 9). Before the installation,

(x) Install the spotlight bracket (Fig. 9). Before the installation,
FIG. 8: INSTALL SPOTLIGHT HEAD AND SHAFT ASSEMBLY

1. Install the spotlight head and shaft assembly by passing the shaft through the bracket and then the spotlight head. Be sure to engage the bracket set screw (8) to securely fix the spotlight head in the upper position as shown in Fig. 8.

2. Tighten set screw (8) (Fig. 8) to secure just enough fixation to prevent the spotlight head from moving.

3. Tighten set screw (8) (Fig. 8) to ensure that there is no play in the spotlight head.

4. Adjust the spotlight head on the upper side, aligning the dimple on the upper side with the bracket set screw.

5. Install the spotlight head and shaft assembly by passing the shaft through the bracket and then the spotlight head. Be sure to engage the bracket set screw (8) to securely fix the spotlight head in the upper position as shown in Fig. 8.

FIG. 7: CONNECT SPOTLIGHT LEAD WITH TOGGLE AT OFF POSITION
1. INSTALL SPOTLIGHT HANDLE ASSEMBLY
